Convention of the Church of God in Christ, Knoxville District. In an effort to further their mission to train, enrich, and educate youth and their families, conversations related to educational preparation, being productive citizens in their communities, and innovative dreamers were held. OCEO Coordinator Quannah Washington shared messages with students and parents on the use of education as a tool to facilitate future success, as the two simultaneously play an active role in life after high school graduation. Over 100 youth and 70 parents participated. This is one of the many ways that OCEO supports community organizations in the mission to help prepare young scholars for post-secondary education and encourage the next generation of leaders.
