

Statement of Purpose

The University of Tennessee Board of Trustees adopted the following statement on diversity on October 23, 2020:

One of the principal missions of The University of Tennessee is to provide quality educational opportunities for the people of this state. One measure of the quality of an educational experience is the extent to which it enables the recipient to compete and be productive in society and contribute to the quality of life. The Board of Trustees recognizes that diversity in the educational environment, including an outstanding and diverse student body, faculty, staff, and alumni, and an environment conducive to learning, adds value to the educational experience and the degree earned. Interacting with people from diverse backgrounds and perspectives augments the curricular experience and affords every student the opportunity to gain the knowledge and skills necessary to be a productive and contributing citizen of this state and nation, capable of competing in a global society. Thus, diversity is fundamental to a sound twenty-first century education. The Board affirms the educational value of a diverse and fully inclusive campus community, one that is enriched by persons of different backgrounds, points of view, cultures, socioeconomic status, and other diverse characteristics. The Board expects the University to engage in a variety of initiatives to advance diversity in all aspects of University life.

Consistent with the Board's statement on diversity, the strategic vision of the University of Tennessee, Knoxville as approved by the Board includes a goal of developing and sustaining a nurturing university culture where diversity and community are enduring sources of strength.
